

## Status across domain areas

### NHS Airedale, Wharfedale & Craven CCG

We spend approximately **£1,564** for every person registered with a GP in Airedale, Wharfedale & Craven and this money gives both local doctors and local people more say in how our healthcare is organised. We buy services on behalf of people living in our area which include an increasingly older population with a fifth over 65 years of age and we want to care for our elderly in particular those who are becoming frail

\*\*\* Better    \*\*\* Similar    \*\*\* Worse compared to England

#### Self-care

**Better self-care: training**  
\*\*\*

10.3% of staff across health and social care have attended training to support people with better self-care

#### Community Services

**Carers with a Long-Term-Condition**  
\*\*\*

0.67 score for carers reporting they feel supported to manage their LTC(s) ranked well amongst England's CCGs

#### Urgent & Emergency Care

**Urgent Care Sensitive conditions**  
\*\*\*

We have a high rate of emergency admissions for urgent care sensitive conditions 2,475 per 100,000 population

#### Collaborating Hospitals

**Gastroenterology**  
\*\*\*

Gastroenterology specialty considering a 24/7 acute model across 2 sites at Airedale Hospital and Bradford Royal Infirmary

#### Better Health

**change 4 life Childhood obesity**  
\*\*\*

3 out of 10 children aged ten or eleven years of age are overweight or obese, this result is better than the average across England

#### Better Care

**Care quality ratings**  
\*\*\*

Ratings for primary care are the best. However, ratings for hospitals & community services and for care homes and residential homes are in need of improvement

#### Sustainability

**Financial performance** Green

We want to make every pound go further and have developed plans to improve quality whilst saving money.

#### Leadership

**Quality of Leadership** Green Star

In 2017/18 the quality of our leadership was assessed as amongst the best in England, an improvement on last years Green rating

**Health Inequalities**  
\*\*\*

The frequency of people being admitted to hospital for long term conditions, from our poorest communities is higher than other areas in England

**NHS Constitution Standards**  
\*\*\*

Waiting times for cancer treatment were met. However, were not met for hospital outpatient appointments or Accident and Emergency, although results were similar to across England

**Uptake of new e-referrals system**  
\*\*\*

Currently 3 out of 5 referrals are made electronically via the e-referrals services. This needs to be the way all patients are referred from the 1<sup>st</sup> of October 2018

**Effectiveness of relationships**  
\*\*\*

Working relationships as assessed by our annual 360 degree stakeholder survey were the highest across England, ranked 8 out of 207

## NHS Airedale, Wharfedale & Craven CCG

\*\*\* Better   \*\* Similar   \* Worse compared to England

**Diabetes**  
Structured education  
3 x treatment levels

**Cancer**  
Early diagnosis & treatment  
improved outcomes

**Mental Health**  
Access to treatment and out of area

**Learning Disabilities**  
Health checks & in-pts

**Maternity**  
Experience and outcomes of maternity services

**Dementia**  
Prevalence and post diagnostic packages

### Diabetes

**Structured education**  
\*\*\*

Attendance for people with a new diagnosis of diabetes is low across England and locally we are about the same with just 7.4% attending.

**3 recommended Treatment levels**  
\*\*\*

Good control of BP, cholesterol and HbA1c (sugar) is important. However, only 7 out of 20 people with diabetes have good control of all three. We need to make improvements

### Cancer

**Cancer diagnosis at an early stage**  
\*\*\*

Diagnosing cancer at an early stage is important however only 1/2 of all cancer cases are diagnosed early, this result is about the same as across England however needs to improve

**Cancer survival at one year**  
\*\*\*

Almost 3 out of every 4 people with cancer survive beyond the first year. This result is higher than seen across England

### Mental Health

**Early Intervention Psychosis**  
\*\*\*

Access to intervention for psychosis is above the 50% standard, with 7 out of every 10 people being seen within 2 weeks for a NICE recommended care package

**Out of area placements**

Reducing out of area placements for people with mental health problems is a key priority – currently we have zero bed days placed out of area

### Learning Disabilities

**Reduce specialist inpatient care**  
\*\*\*

For all three CCGs across Bradford district and Craven the rate of specialist inpatients is 39 per 1 million population. We need to reduce this further

**Health checks**  
\*\*\*

Only 2 out of every 5 people aged 14 or over, with a learning disability receive their annual health check, this result needs to be improved

### Maternity

**Smoking in pregnancy**  
\*\*\*

Just over 1 in 10 women still report as smokers at the time of delivering their baby. This result is similar to the England rate, however needs to reduce.

**Neonatal mortality and stillbirths**  
\*\*\*

The rate of neonatal mortality and stillbirths is 5.8 per 1,000 births however there is a national ambition to reduce this to below 0.67 per 1,000

### Dementia

**Dementia diagnosis**  
\*\*\*

Almost 3 out of 4 people estimated to have dementia in our population have been found, this result is amongst the best in England

**Care planning**  
\*\*\*

4 out of every 5 people with a diagnosis have care planning and post-diagnostic support in place, again this is amongst the best in England

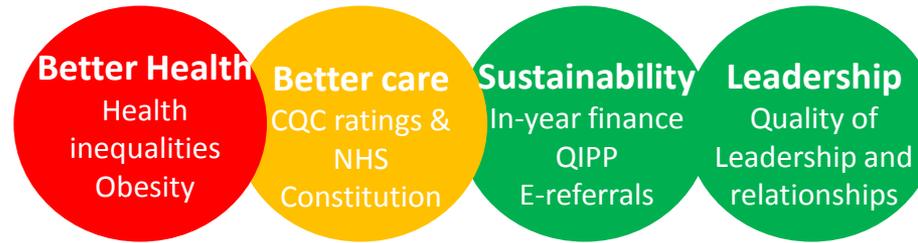

# NHS Airedale, Wharfedale & Craven CCG – key points

- Overall rating of **OUTSTANDING for 2017/18** an improvement on 2016/17 with Better Health, Sustainability and Leadership are all rated as GREEN and Better Care is rated AMBER. Over the year we have seen improvements in 22 indicators, with 13 indicators appearing amongst the top performing in England and 12 appearing in the worst
- **National clinical priority ratings** cancer = good, mental health = requires improvement, dementia = good maternity = good and diabetes = requires improvement
- **NHS constitutional standards** with challenges in delivery for A&E 4hr waiting time standard and 18 week referral to treatment time
- **Areas performing well include** childhood obesity, AMR broad spectrum antibiotic prescribing, CQC high quality care rating for primary care sector, cancer one year survival, mental health out of area placements, learning disabilities reliance on specialist inpatient beds, maternity experience, dementia diagnosis rate and post diagnostic support, delayed transfers of care, emergency admission rate for people at the end of life, effectiveness of working relationships and quality of leadership
- **Areas for improvement** diabetes treatment levels, health inequalities, CQC acute & adult social care sectors, neonatal mortality and stillbirth rate, primary care extended access, CHC assessments, uptake of the e-referrals service, patient and community engagement and workforce race equality standard

## Status across domain areas

### NHS Bradford City CCG

We spend approximately **£1,331** for every person registered with a GP in the city and this money gives both local doctors and local people more say in how our healthcare is organised. We are recognised as being the most deprived CCG in England as we have some of the poorest communities living in our city and we want to tackle inequalities that contribute to ill health

\*\*\* Better    \*\*\* Similar    \*\*\* Worse compared to England

#### Self-care

**Better self-care: training**  
\*\*\*

10.3% of staff across health and social care have attended training to support people with better self-care

#### Out of Hospitals

**Carers with a Long-Term-Condition**  
\*\*\*

0.61 score for carers reporting they feel supported to manage their LTC(s) ranks low amongst England's CCGs and we need to improve

#### Urgent & Emergency Care

**Urgent Care Sensitive conditions**  
\*\*\*

We have the highest rate of emergency admissions for urgent care sensitive conditions in England with 4,374 per 100,000 population

#### Planned Care

**Gastroenterology**  
\*\*\*

Gastroenterology specialty considering a 24/7 acute model across 2 sites at Airedale Hospital and Bradford Royal Infirmary

#### Better Health

**change 4 life** Childhood obesity  
\*\*\*

2 out of 5 children aged ten or eleven year olds are overweight or obese, this result is higher than the England which is 3 out of 10

#### Better Care

**Care Quality Commission** Care quality ratings  
\*\*\*

Ratings for primary care is similar to England, however for hospitals and community services and for care homes and residential homes ratings show there is a need for improvement in our area

#### Sustainability

**Financial performance** **Green**

We want to make every pound go further and have developed plans to improve quality whilst saving money.

#### Leadership

**Quality of Leadership** **Green Star**

In 2017/18 the quality of our leadership was again assessed as amongst the top CCGs in England

#### Health inequalities

**7 measures of deprivation**  
\*\*\*  
The frequency of people being admitted to hospital for long term conditions, from our poorest communities is 3 ½ times higher than the England average.

**NHS Constitution Standards**  
\*\*\*

**THE NHS CONSTITUTION**  
the NHS belongs to us all  
Waiting times for cancer treatment, for hospital out patient appointments and in Accident and Emergency are not meeting the recommended standard

**Uptake of new e-referrals system**  
\*\*\*

**2018 Oct**  
Currently under ½ of referrals are made electronically via the e-referrals services. This needs to be the way all patients are referred by the 1<sup>st</sup> of October 2018

**Effectiveness of relationships**  
\*\*\*

Working relationships as assessed by our annual 360 degree stakeholder survey were the highest across England, ranked 15 out of 207

### NHS Bradford City CCG

\*\*\* Better    \*\*\* Similar    \*\*\* Worse compared to England

**Diabetes**
