

## Status across domain areas

### NHS Airedale, Wharfedale & Craven CCG

We spend approximately **£1,564** for every person registered with a GP in Airedale, Wharfedale & Craven and this money gives both local doctors and local people more say in how our healthcare is organised. We buy services on behalf of people living in our area which include an increasingly older population with a fifth over 65 years of age and we want to care for our elderly in particular those who are becoming frail

\*\*\* Better    \*\*\* Similar    \*\*\* Worse compared to England

#### Self-care

**Better self-care: training**  
\*\*\*

10.3% of staff across health and social care have attended training to support people with better self-care

#### Community Services

**Carers with a Long-Term-Condition**  
\*\*\*

0.65 score for carers reporting they feel supported to manage their LTC(s) ranked well amongst England's CCGs

#### Urgent & Emergency Care

**Urgent Care Sensitive conditions**  
\*\*\*

We have a high rate of emergency admissions for urgent care sensitive conditions 2,475 per 100,000 population

#### Collaborating Hospitals

**Gastroenterology**  
\*\*\*

Gastroenterology specialty considering a 24/7 acute model across 2 sites at Airedale Hospital and Bradford Royal Infirmary

#### Better Health

**Childhood obesity**  
\*\*\*

3 out of 10 children aged ten or eleven years of age are overweight or obese, this result is better than the average across England

#### Better Care

**Care quality ratings**  
\*\*\*

Ratings for primary care are the high. However, ratings for hospitals & community services and for care homes and residential homes are in need of improvement

#### Sustainability

**Financial performance**    Green

We want to make every pound go further and have developed plans to improve quality whilst saving money. At this time we are not fully delivering planned savings.

#### Leadership

**Quality of Leadership**

**Green Star**

In 2017/18 the quality of our leadership was assessed as amongst the best in England, an improvement on last years Green rating

**Health Inequalities**  
\*\*\*

The frequency of people being admitted to hospital for long term conditions, from our poorest communities is higher than other areas in England

**NHS Constitution Standards**  
\*\*\*

Waiting times for cancer treatment, for hospital outpatient appointments or Accident and Emergency have not been met this quarter, although results were similar to across England

**Uptake of new e-referrals system**  
\*\*\*

Currently 7 out of 10 referrals are made electronically via the e-referrals services. This needs to be the way all patients are referred from the 1<sup>st</sup> of October 2018

**Effectiveness of relationships**  
\*\*\*

Working relationships as assessed by our annual 360 degree stakeholder survey were the highest across England, ranked 8 out of 195 CCGs

## NHS Airedale, Wharfedale & Craven CCG

\*\*\* Better   \*\* Similar   \* Worse compared to England

**Diabetes**  
Structured education  
3 x treatment levels

**Cancer**  
Early diagnosis & treatment  
improved outcomes

**Mental Health**  
Access to treatment and out of area

**Learning Disabilities**  
Health checks & in-pts

**Maternity**  
Experience and outcomes of maternity services

**Dementia**  
Prevalence and post diagnostic packages

### Diabetes

**Structured education**  
\*\*\*

**3 recommended Treatment levels**  
\*\*\*

Attendance for people with a new diagnosis of diabetes is low across England and locally we are about the same with just 7.4% attending.

Good control of BP, cholesterol and HbA1c (sugar) is important. However, only 7 out of 20 people with diabetes have good control of all three. We need to make improvements

### Cancer

**Cancer diagnosis at an early stage**  
\*\*\*

**Cancer survival at one year**  
\*\*\*

Diagnosing cancer at an early stage is important however only 1/2 of all cancer cases are diagnosed early, this result is about the same as across England however needs to improve

Almost 3 out of every 4 people with cancer survive beyond the first year. This result is higher than seen across England

### Mental Health

**Early Intervention Psychosis**  
\*\*\*

**Out of area placements**

Access to intervention for psychosis is above the 50% standard, with 11 out of every 20 people being seen within 2 weeks for a NICE recommended care package

Reducing out of area placements for people with mental health problems is a key priority – currently we have zero bed days placed out of area

### Learning Disabilities

**Reduce specialist inpatient care**  
\*\*\*

**Health checks**  
\*\*\*

For all three CCGs across Bradford district and Craven the rate of specialist inpatients is 47 per 1 million population. We need to reduce this further

Only 2 out of every 5 people aged 14 or over, with a learning disability receive their annual health check, this result needs to be improved

### Maternity

**Smoking in pregnancy**  
\*\*\*

**Neonatal mortality and stillbirths**  
\*\*\*

1 in 10 women still report as smokers at the time of delivering their baby. This result is similar to the England rate, however needs to reduce

The rate of neonatal mortality and stillbirths is 5.8 per 1,000 births however there is a national ambition to reduce this to below 0.67 per 1,000

### Dementia

**Dementia diagnosis**  
\*\*\*

**Care planning**  
\*\*\*

Almost 3 out of 4 people estimated to have dementia in our population have been found, this result is amongst the best in England

4 out of every 5 people with a diagnosis have care planning and post-diagnostic support in place, again this is amongst the best in England

# NHS Airedale, Wharfedale & Craven CCG – key points

- Overall rating of **OUTSTANDING** for 2017/18 an improvement on 2016/17 with Better Health, and Leadership are rated as **GREEN** and Better Care and Sustainability rated **AMBER**.
- **National clinical priority ratings** cancer = **Good**, mental health = **Requires Improvement**, dementia = **Good**, maternity = **Good**, diabetes = **Requires Improvement**.
- **Key NHS constitutional standards under pressure include:** for A&E 4hr waiting time standard, 18 week referral to treatment time and cancer 62 day referral to treatment time.
- **Areas performing well include:** Childhood overweight/obesity, AMR broad spectrum antibiotic prescribing, quality of life for carers, CQC high quality care rating for primary care sector, cancer one year survival, maternity experience, dementia diagnosis rate and post diagnostic support, delayed transfers of care, admission rate for people at the end of life, primary care transformation investment, effectiveness of working relationships and quality of leadership.
- **Areas for improvement include:** Diabetes treatment levels and structured education for newly diagnosed patients (within 12 months), health inequalities admissions UCSCs and ACS, CQC acute sector and adult social care sector, cancer patient experience, IAPT access, neonatal mortality and stillbirth rate, primary care extended access, patient and community engagement, workforce race equality standard, NHS e-referrals, emergency admissions for UCS and 3 out of 4 clinical standards in A&E, Learning disabilities annual health checks and in-year financial performance.

## Status across domain areas

### NHS Bradford City CCG

We spend approximately **£1,331** for every person registered with a GP in the city and this money gives both local doctors and local people more say in how our healthcare is organised. We are recognised as being the most deprived CCG in England as we have some of the poorest communities living in our city and we want to tackle inequalities that contribute to ill health

\*\*\* Better    \*\*\* Similar    \*\*\* Worse compared to England

### Self-care

**Better self-care: training**  
\*\*\*

10.3% of staff across health and social care have attended training to support people with better self-care

### Out of Hospitals

**Carers with a Long-Term-Condition**  
\*\*\*

0.51 score for carers reporting they feel supported to manage their LTC(s) ranks low amongst England's CCGs and we need to improve

### Urgent & Emergency Care

**Urgent Care Sensitive conditions**  
\*\*\*

We have the highest rate of emergency admissions for urgent care sensitive conditions in England with 4,374 per 100,000 population

### Planned Care

**Gastroenterology**  
\*\*\*

Gastroenterology specialty considering a 24/7 acute model across 2 sites at Airedale Hospital and Bradford Royal Infirmary

### Better Health

**Childhood obesity**  
\*\*\*

2 out of 5 children aged ten or eleven year olds are overweight or obese, this result is higher than the England which is 3 out of 10

**Health inequalities**  
\*\*\*

The frequency of people being admitted to hospital for long term conditions, from our poorest communities is 3 ½ times higher than the England average.

### Better Care

**Care quality ratings**  
\*\*\*

Ratings for primary care is similar to England, however for hospitals and community services and for care homes and residential homes ratings show there is a need for improvement in our area

**NHS Constitution Standards**  
\*\*\*

Waiting times for cancer treatment, for hospital outpatient appointments or Accident and Emergency have not been met this quarter, although results were similar to across England

### Sustainability

**Financial performance**  
Green

We want to make every pound go further and have developed plans to improve quality whilst saving money.

**Uptake of new e-referrals system**  
\*\*\*

Currently under 3 out of every 5 referrals are made electronically via the e-referrals services. This needs to be the way all patients are referred by the 1<sup>st</sup> of October 2018

### Leadership

**Quality of Leadership**  
Green Star

In 2017/18 the quality of our leadership was again assessed as amongst the top CCGs in England

**Effectiveness of relationships**  
\*\*\*

Working relationships as assessed by our annual 360 degree stakeholder survey were the highest across England, ranked 15 out of 195 CCGs

### NHS Bradford City CCG

\*\*\* Better    \*\*\* Similar    \*\*\* Worse compared to England

**Diabetes**  
Structured education  
3 x treatment levels

**Cancer**  
Early diagnosis & treatment  
improved outcomes

**Mental Health**  
Access to treatment & out of area

**Learning Disabilities**  
Health checks & in-pts

**Maternity**  
Experience and outcomes of maternity services

**Dementia**  
Prevalence and post diagnostic packages

### Bradford Beating Diabetes

**Structured education**  
\*\*\*

**3 recommended Treatment levels**  
\*\*\*

Attendance for people with a new diagnosis of diabetes is low across England at just 7.3%. Our local result is even lower with just 2 out of every 100 attending

Good control of BP, cholesterol and HbA1c (sugar) is important. However, only 7 out of 20 people with diabetes have good control of all three. We need to make improvements

### Bradford Improving Cancer Survival

**Cancer diagnosis at an early stage**  
\*\*\*

**Cancer survival at one year**  
\*\*\*

Diagnosing cancer at an early stage is important, over 1/2 of all cancer cases are diagnosed early, this result is higher than across England

7 out of every 10 people with cancer survive beyond the first year. This result is much lower than seen across England and we need to improve

### Mental Health

**Early Intervention Psychosis**  
\*\*\*

**Out of area placements**

Access to intervention for psychosis is above the 50% standard, with almost 137 out of every 20 people being seen within 2 weeks for a NICE recommended care package

Reducing out of area placements for people with mental health problems is a key priority – currently we have zero bed days placed out of area

### Learning Disabilities

**Reduce specialist inpatient care**  
\*\*\*

**Health checks**  
\*\*\*

For all three CCGs across Bradford district and Craven the rate of specialist inpatients is 47 per 1 million population. We need to reduce this further

Almost 2 out of every 3 people aged 14 or over, with a learning disability, receive their annual health check. This result is amongst the highest across England

### Maternity

**Smoking in pregnancy**  
\*\*\*

**Neonatal mortality and stillbirths**  
\*\*\*

More than 1 in 10 women still report as smokers at the time of delivering their baby. This result is similar to the England rate, however needs to reduce

The rate of neonatal mortality and stillbirths is 8.4 per 1,000 births and there is a national ambition to reduce this to below 0.67 per 1,000, we need to improve

### Dementia

**Dementia diagnosis**  
\*\*\*

**Care planning**  
\*\*\*

4 out of 5 people estimated to have dementia in our population have been found, this result is amongst the best in England

4 out of 5 people with a diagnosis have care planning and post-diagnostic support in place, again this is amongst the best in England

## NHS Bradford City CCG – key points

- Overall rating of **OUTSTANDING** for 2017/18 an improvement on 2016/17, with Better Health is **RED** indicating areas with the greatest need for improvement, Better Care and Sustainability are **AMBER** and Leadership is **GREEN**.
- **National clinical priority ratings** cancer = **requires improvement**, mental health = **requires improvement**, dementia = **outstanding**, maternity = **requires improvement**, diabetes = **inadequate** and learning disabilities = **requires improvement**.
- **Key NHS constitutional standards under pressure include:** for A&E 4hr waiting time standard, IAPT recovery\*, 18 week referral to treatment time\* and cancer 62 day referral to treatment time.
- **Areas performing well include:** AMR: broad spectrum prescribing, cancer diagnosed at an early stage, Learning disabilities physical health checks and completeness of registers, maternal experience and choice, dementia diagnosis & support, delayed transfers of care, primary care transformation investment, effectiveness of working relationships and quality of leadership.
- **Areas for improvement:** Childhood obesity, diabetes: structured education and treatment levels, health inequalities admissions ACS & UCSCs\*, quality of life for carers\*, CQC care rating: acute and adult social care\*, one year cancer survival and cancer patient experience, IAPT: access and recovery\*, smoking at the time of delivery and maternal neonatal mortality and stillbirths\*, urgent care sensitive admissions\* and emergency admissions in the last three months of life, 2 out of 4 clinical standards in A&E, patient experience of GP services\*, utilisation of the e-referrals service, CHC assessments taking place in hospital, workforce race equality standard, demand management (NHS RightCare) and personal health budgets.

\* denotes: areas in greatest need of improvement whereby our CCGs are ranked within the bottom 10 CCGs in England

### Status across domain areas
