

Training for patient networks

Making the Patient Network and PPGs more effective

NHS Bradford District and Craven Clinical Commissioning Groups (CCGs) are committed to developing high quality services that meet the needs of our local population. We are working in partnership with Community Action Bradford and District (CABAD) to provide training to the Patient Network, PPGs and GP Practice Volunteers to help them become more effective so that they can help to develop quality services.

The training will be on the following 6 topics:

1. **PPGs** – What they're all about
2. **NHS** – Your local NHS
3. **Community Partnerships**
4. **Engagement** – what do we really mean?
5. **Knowing your community**
6. **Social Media**

The 1st topic will give practical tips on what makes a good patient group and how to get the best out of your group.

The 2nd topic will inform you about the current setup of your local NHS in Bradford, such as, Community Partnerships, Care Navigation, Self-care and the line of command for the CCGs.

The 3rd topic will explore Community Partnerships in more detail and help you to explore what they do and how to get involved.

Who's it for:

- Patient Network members
- Patient Participation Group (PPG) members and people interested in joining a patient group
- GP Practice Volunteers such as, Practice Health Champions etc.
- Practice staff working with patient groups or with a remit for engagement (5 max per topic)
